

After-Study Form

The aim of this experiment is to determine whether a reliable method can be created to predict a person's social anxiety by using their session activity. Specifically, If you would still like to proceed, please click the "Export Data" button on the main screen to send me your data. If at any point you would like me to remove your data, please fill out the form below and send me your identifier.

Do you have any comments or questions about the experiment? Please do not hesitate to contact me at 2255541h@student.gla.ac.uk. Please take a note of this email as well as my supervisor's contact in case you have any further questions afterwards. Thank you for your help.

The opt-out and data removal form is here: <https://forms.gle/Fd4iyFCN5vHLPRmE8>

1. Phone make and model

2. Android version

3. Application RAM usage, average and maximum. This should be given in System Settings -> Apps -> Dissertation -> Memory Usage (not all phones will show this, if yours does not then write "does not show")

4. Application battery usage. Should be found in the System Settings of the device relevant to battery information (not all phones will show this, if yours does not then write "does not show")

5. Did you experience any problems during the trial? If so, can you please list them?

6. Did you feel comfortable with location tracking for the duration of the experiment?

Mark only one oval.

	1	2	3	4	5	
Very uncomfortable	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very comfortable

7. How did you feel knowing that this data was analysed?

Mark only one oval.

	1	2	3	4	5	
Very uncomfortable	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very comfortable

8. All of the data that was collected came from either the Android internal Usage Stats API, the Fused Location Provider API, or from the system knowing when a call is happening. Do you feel comfortable with the system collecting this data and making it easily accessible to applications via a simple permission request?

Mark only one oval.

☐ Yes

☐ No

☐ Neither

☐ Other: _____

9. Do you think your behaviour may have been altered since you knew the location was being explicitly recorded?

Mark only one oval.

☐ Yes

☐ No

☐ Neither

☐ Other: _____

10. Do you have any feedback about the design of the application?

11. Do you have any further comments?
